Sravani Medagam

FULL-STACK SOFTWARE ENGINEER | REACT | TYPESCRIPT | PYTHON | FASTAPI | NODE.JS

657-631-7877 | sravanimedagam0709@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 4.5+ years of experience building secure, scalable web applications with React, TypeScript, Python, FastAPI, Node.js, PostgreSQL, MongoDB, and AWS. Experienced in multi-tenant architecture, RESTful API and database design, logistics workflow automation, authentication and authorization, production deployment, and systems serving 6,000+ users.

TECHNICAL SKILLS

Languages & Frontend: Python, JavaScript (ES6+), TypeScript, React.js, Next.js, Angular, AngularJS, HTML5, CSS3, Tailwind CSS, Bootstrap, SASS, Responsive Design

Backend & APIs: FastAPI, Node.js, Express.js, NestJS, REST APIs, Socket.IO, JWT, session management, authentication and authorization, RBAC, secure cookies

Databases & ORM: PostgreSQL, SQLAlchemy, MongoDB, MongoDB Atlas, MySQL, Prisma ORM, Mongoose, Redis, data modeling, query optimization

Cloud, DevOps & Testing: AWS, Docker, Git, GitHub Actions, CI/CD, Vercel, Render, Neon, Upstash, Jest, Vitest, Playwright, Postman

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Software Engineer | May 2026 - September 2026

SMS Logistics / CIX Tech (In-House Software Team) | Remote

- Developed Python/FastAPI services for CIX Attendance, a multi-tenant workforce platform supporting 3 organizations, 10 locations, and 100+ users.
- Designed RESTful APIs and PostgreSQL/SQLAlchemy workflows for employee attendance, trip management, and operational reporting.
- Implemented organization-scoped authorization and server-side role validation to enforce secure access boundaries across organizations and locations.
- Built validation to prevent duplicate check-ins and automatically classify incomplete attendance records, improving operational consistency.
- Built responsive React/TypeScript interfaces and a five-step freight estimator with geocoding, route-distance calculations, and vehicle recommendations.

Full Stack Engineer | September 2020 - January 2025

Eazy Refund Consultancy LLP | Hyderabad, India

- Developed and scaled 5 business-critical applications serving 6,000+ users across tax, compliance, onboarding, document management, and payment workflows.
- Led migration of legacy AngularJS applications to React, improving frontend maintainability, scalability, and developer productivity.
- Architected and maintained 40+ Node.js/Express/MongoDB REST APIs for authentication, onboarding, payments, reporting, and workflow automation.
- Integrated secure payment gateways and third-party services supporting thousands of customer transactions annually across multiple platforms.
- Deployed production applications on AWS and mentored 6 junior developers through reviews, technical guidance, and Agile delivery.

SELECTED PROJECTS

Logistics & Workforce Management Platforms | smslogisticsin.com

Python, FastAPI, React, TypeScript, PostgreSQL, SQLAlchemy, Tailwind CSS

- Delivered secure multi-tenant attendance workflows and organization/location-scoped access controls for operational teams.
- Developed a responsive freight-estimation experience with geocoding, route distance, and vehicle recommendations.

DevElevate AI - AI-Powered Career Preparation SaaS | Live Demo | GitHub

Next.js, React, TypeScript, NestJS, PostgreSQL, Prisma, Redis, Docker

- Built resume analysis, mock interviews, career roadmaps, analytics, subscriptions, and role-aware coding practice in a deployed SaaS platform.
- Implemented JWT/refresh-token authentication, persistent data models, automated testing, GitHub Actions CI/CD, and cloud deployment.

EventLens - Event Discovery & Management Platform | Live Demo | GitHub

React.js, Node.js, Express.js, MongoDB, Mongoose, Render

- Built event discovery, creation, RSVP, attendee tracking, search/filtering, organizer dashboards, and PWA functionality.
- Implemented session authentication, bcrypt hashing, RBAC, protected routes, validation, and production deployment.

Developer Portfolio Platform | Live Demo | GitHub

React.js, Vite, Node.js, Express.js, MongoDB Atlas, Vercel, Render

- Engineered a portfolio CMS with JWT-secured project management, contact inquiries, visitor analytics, event tracking, and GitHub integration.
- Built protected REST APIs and deployed the frontend and backend with cloud-hosted persistence.

EDUCATION

Master of Science in Computer Science - Web Development | March 2025 - August 2026

Westcliff University, California, USA | GPA: 3.9/4.0

Master of Science in Computer Science | June 2019 - July 2021

Sri Krishnadevaraya University, India | CGPA: 7.65/10

ADDITIONAL STRENGTHS

Agile development, SDLC, API security, performance optimization, debugging, code reviews, production support, cross-functional collaboration, stakeholder communication, and technical mentoring.
